

ALEX K.

Infrastructure Architect | 10 Years Experience

SUMMARY

Architect specializing in fully automated infrastructure solutions on leading **Amazon Web Services (AWS)** environments. Dedicated to maximizing service uptime and minimizing operational overhead.

SKILLS

Cloud: AWS (VPC, S3, RDS, EC2), Azure DevOps.

Automation/IaC: **Terraform**, Ansible, Packer.

Orchestration: **Kubernetes**, Docker Swarm.

Programming: **Python**, Go.

Databases: **PostgreSQL**, **Redis**, DynamoDB.

EXPERIENCE

Platform Lead, GlobalTech (2020 – Present)

- * Directed team responsible for migrating entire service stack to **AWS**.
- * Established **GitOps** pipelines (CI/CD) using ArgoCD and Jenkins for automated deployment across 50+ clusters.
- * Implemented **Terraform** Enterprise to manage all resources declaratively.
- * Designed a **Kubernetes** solution to handle over 100,000 requests per second.
